

WASTE MANAGEMENT

Service Updates

The City of River Bluff is working with Waste Management to improve our weekly service! We have a long-standing relationship with WM and want to address recent concerns that our residents have expressed.

1. WM is in the process of transitioning all routes to Automated Side-Loading (ASL) Trucks

- Requires all waste to be in a can.
- Additional WM Cans may be rented with an individual residence contract
- Damaged Trash and Recycling carts that aren't compatible with ASL trucks will be removed and WM will replace your cart within one week. If carts are not available for replacement, yours will not be removed until a replacement can be delivered.

2. Driver Shortage

- There are 80,000 CDL drivers nationwide
- National goal is 130,000 trained CDL drivers by 2030
- Each trained driver will be in their own ASL truck, resulting in a more efficient workforce

3. Regulation Changes

- Yard waste must be bagged in brown yard waste bags and placed in WM garbage can
- The City is actively working to establish bi-weekly yard waste removal. Details will be communicated as they become available.

4.Replacement Trash & Recycling Carts

- If you need a replacement Waste Management trash or recycling cart, please email Katie.Buhts@CityofRiverBluff.com
- Please allow 7-10 business days for a replacement

**Upcoming Bulk Pickup will take
place**

October 19-22.

**Large dumpsters will be available
on Elm Lane and Cherry Tree Lane.**

**City-wide leaf removal will be
announced on the City's website and
official Facebook page!**
